Phone	BH 218	Neete Saha - n.saha@csuohio.edu
Email	216-687-9321	
	b.wampler@csuohio.edu	

Mission Statement

Pre-Professional Health Programs serves all students, prospective through alumni and post baccalaureate, seeking entry into professional health schools by providing resources, application assistance, mock interviews, and by supporting individual student goals.

Pre-professional programs are not directly linked to a particular major, but rather are designed for students majoring in any discipline or returning to school after having already completed a degree. Successful preparation depends upon timely academic advising, an effective strategy for choosing appropriate courses and experiential learning activities. We hope the information in this site will guide and enhance your Cleveland State undergraduate or post-baccalaureate experience as you prepare for further study.

Students served: (Pre-) Anesthesia, Dental, Medicine, Occupational Therapy, Optometry, Pharmacy, Physician Assistant, Physical Therapy, Pre-Audiology and Speech Language Pathology, and Veterinary Medicine.

Revised September 9, 2021
